

Lead Solar PV Technician

Reconnect Clean Energy is a locally owned solar installation company located in Glenwood Springs, CO. Our mission is to provide sustainable jobs in our community with a focus on skill development, training, and career advancement. We offer competitive wages and benefits and are seeking long-term committed members for our team. If you are also passionate about renewables and are looking to advance your career in solar energy, we want to talk to you!

Responsibilities:

- Work with project manager closely to lead the crew through effective and efficient time use during 8 hour work days, weather permitting.
- Provide progress updates to the project manager both verbally and through electronic communication.
- Provide support and guidance to fellow crew members by being an effective and efficient team leader.
- Comply with OSHA and Reconnect Clean Energy safety standards and ensure personal and crew safety at all times.
- Ensure a neat and organized job site.
- Clean up at the end of each day to leave job site better than when it was found.
- Ensure quality craftsmanship that meets system design specifications.
- Work in conjunction with the project manager on project loading to ensure all necessary materials and tools arrive on the job site.
- As the face of the company ensure excellent customer service.
- Ensure proper tool and vehicle maintenance. Help organize and maintain tools and trucks in excellent condition.

Qualifications

- 3+ years experience installing solar with NABCEP certification or movement towards NABCEP cert.
- Experience complying with OSHA safety requirements and regulations.

- Experience in the construction, roofing and electrical trade.
- Comfortable with rooftop work, ladders and equipment.
- Enjoy working outdoors.
- Works well with others and in a team like setting.
- Effective communication with crew, the office and all other solar stakeholders.
- Have a positive attitude and fits Reconnect Clean Energy's ethos and culture.
